Dear Brian Wilson:

Congratulations! I am delighted to inform you that the U.S. Department of Housing and Urban Development (HUD) has approved the Coordinated Community Plan (Plan) submitted by Alaska Balance of State as a condition of your community's participation in the Youth Homelessness Demonstration Program (YHDP).

The Plan lays the foundation for the YHDP in your community and shows the resources needed to end youth homelessness in Alaska. Your work and commitment to developing and supporting a coordinated community approach will assist in guiding HUD's effort to prevent and end youth homelessness.

Alaska Balance of State can now request 100 percent of the \$1,654,023. for the projects identified in the Plan until July 1, 2021. If Alaska Balance of State identifies additional projects to be funded by YHDP funds, the community must submit a revised Plan that includes the additional project[s]. All YHDP funds must be obligated by September 30, 2021.

HUD looks forward to continuing to work with your community as it implements its Plan and appreciates your efforts to develop a system-wide approach to preventing and ending youth homelessness.

Sincerely,
